

Telemedicine: Monitoring Devices

Telemedicine is an expanding part of healthcare around the world. Many devices you may already have could help you and your doctor during your virtual visit. See what devices may be useful:

- Phone camera
- Scale
- Flexible tape measure
- Thermometer
- Blood pressure cuff/monitor
- Pulse oximeter
- Glucometer
- EKG devices (Some Apple, Samsung, and Google Watches, KardiaMobile)

Remember: Not all devices may be useful for all people. Ask your doctor which devices they recommend for you.
