

Med Ed Materials

Who We Are

The primary goal of Med Ed Materials is to increase health literacy levels for low income and uninsured populations. Med Ed Materials produces and distributes evidence based healthcare materials with a target readership of low income and uninsured populations in order to achieve this goal. We accomplish this by doing the following:

- Producing high quality evidence based materials written at a 10th grade reading level or below
- Including one or more credible source per material
- Creating materials with topics helpful for our target readership of low income and uninsured populations
- Posting materials to this website and the iOS app so that anyone may download and use them for free

What Can We Do For YOU

Free Access To Educational Materials

All of our educational materials are produced by our dedicated team of volunteers. Using up to date research and recommendations, our materials are high quality and evidence based. To ensure that the most people can benefit from our materials, we provide them free for all to use. Anyone can download or use our materials at any time or use our free iOS App on the Apple App store for offline and mobile use.

Create Custom Materials

In addition, if there is a one-page topic that you would like to see created, send us a message in the "Contact" tab on our website at www.mededmaterials.org/Contact and we will get back to you, all free of any cost.

Learn More

Visit our website at www.mededmaterials.org or download our iOS app and use any of our free healthcare information posters anytime. All our materials are optimized for color or black and white printing. Contact us at any time via our website or email general@mededmaterials.org to get in touch.
